

TUSTIN EDUCATORS ASSOCIATION

The teachers of the Tustin Educators Association believe that having a positive and optimal learning environment free from hate, bias, prejudice, and discrimination is a basic right of all teachers and students in the Tustin Unified School District.

We affirm that all decisions we make as an association should:

Strive to make every school a safe community for teachers and students to work and learn;

Encourage all of our teachers to teach and promote values of self-worth, compassion for others, and sensitivity for all individual identities;

Advance equal opportunities, equal respect, and equal treatment of teachers and students;

Further advocate for unbiased access to equal opportunities for teachers and students;

Develop a growth mindset that promotes self-advocacy and positive social change;

Support social change in our community by opening dialogue to discuss acceptance of each and every one of our students;

Improve the conditions of teaching and learning so all teachers and students are able to meet their potential;

Protect the human dignity and civil rights of all teachers and students.

We are the voice of the teachers, and we are the ones who represent the needs of our students.
